E-BULLETIN FOR THE MONTH OF NOVEMBER 2023

SENIOR SECTION

From the desk of our Respected Principal Ma'am….

Values

A student's life is full of challenges, changes, growth, and evolution. A growing child imbibes a lot of lessons throughout their student years, most of which stick with them for the rest of their lives. Students with high ethical values become accountable, responsible, and honest people.

Education without values is like a flower without fragrance. Students should realize that character building is equally important as career building. A good character in life is the ultimate thing that stretches a person's self-realization.

"There is a popular notion rather I would say a misconception that values are "better caught than taught". At Khalsa, attempts are made so that values are both caught and taught.

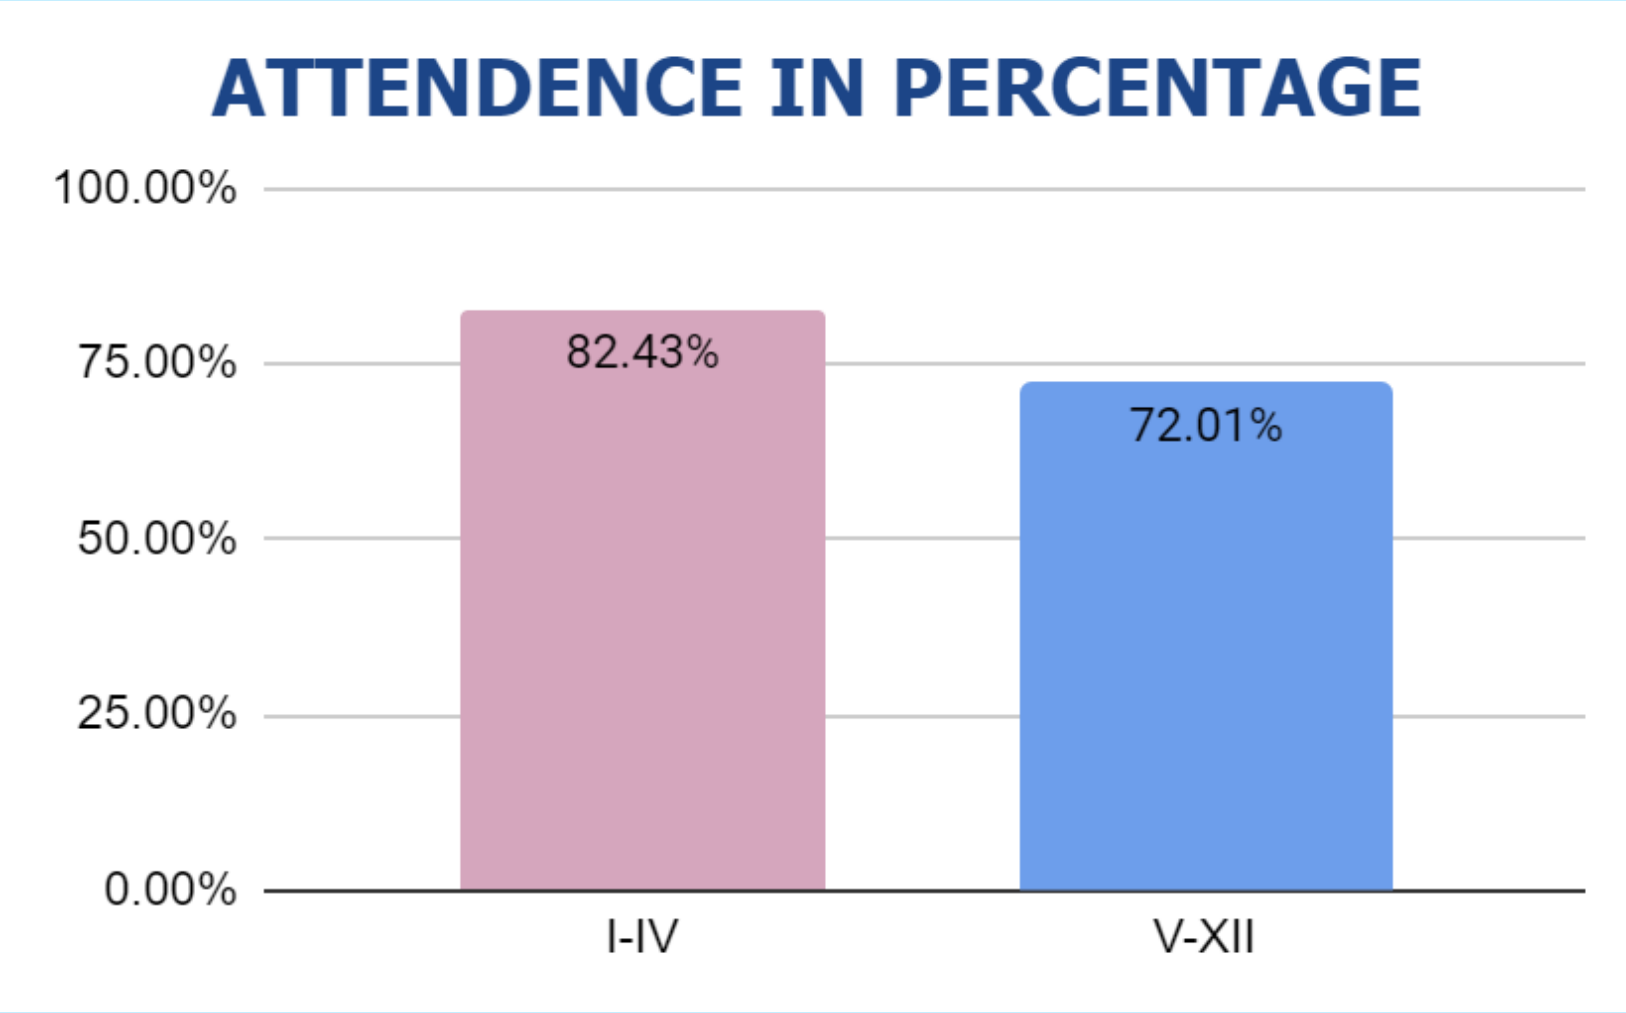

Mere desire or aspiration to progress in life is not enough; success should be based on values. So that the students may emerge as good leaders in their chosen fields.

Dr.Gurmeet Kaur Arjani
