KHALSA MODEL SENIOR SECONDARY SCHOOL

E-BULLETIN (SENIOR SECTION)

FEBRUARY-MARCH, 2026

From the Desk of our Respected Principal Ma'am,

As we journeyed through the months of February and March, we witnessed a remarkable spirit of dedication, resilience, and growth among our students. This period was not just about examinations, but about perseverance, self-belief, and the courage to give one's best.

Our students rose to the challenge with focus and determination, turning hard work into meaningful progress. It was truly inspiring to see them stay committed, even in moments of pressure.

I deeply appreciate the unwavering support of our teachers and parents, whose guidance and encouragement made this journey smoother and more meaningful.

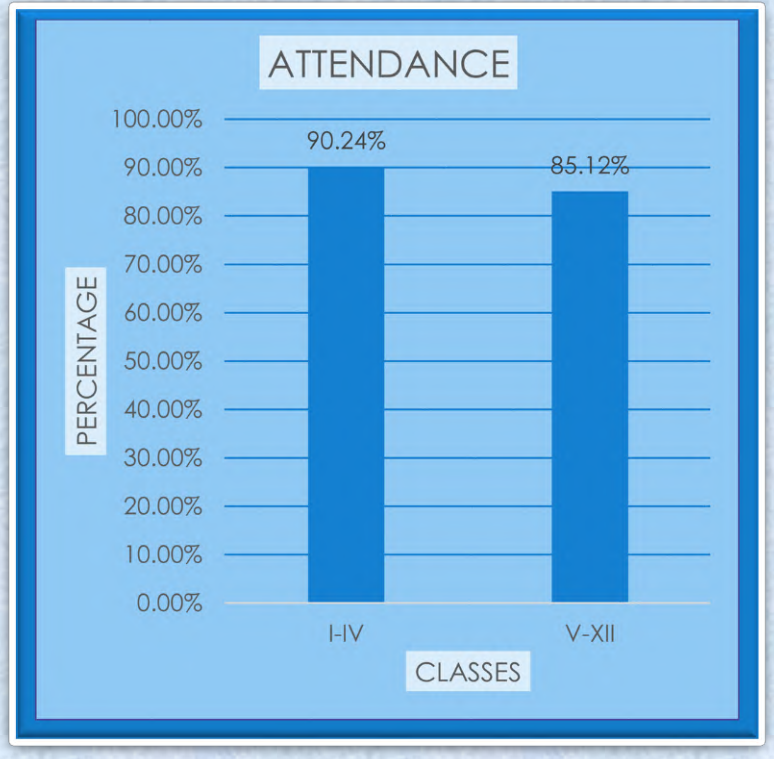

As we concluded the academic session, let us carry forward the lessons learned—not just from books, but from experiences that shaped confidence, character, and strength.

Because true success lies not only in what we achieved, but in who we became along the way.

-Dr Gurmeet Kaur Arjani

SUMMARY OF ACTIVITIES

The months of February and March mark a crucial phase in the academic calendar as they bring along the exam season and the much-awaited results. Even amidst the academic pressure, the school successfully managed to conduct a wide array of enriching activities, which not only provided students with a refreshing break from routine studies but also inspired them through joyful learning, cultural pride, and scientific curiosity. KMSSS celebrated its Foundation Day with great pride and joy. Students and teachers came together to make the day memorable through cultural performances and meaningful celebrations. Adding to the excitement, a prestigious exhibition by ISRO titled 'Space on Wheels' was organised. The exhibition provided students with an inspiring opportunity to explore the wonders of space science through informative displays that sparked curiosity and encouraged young minds to dream big and develop an interest in space and technology. Bagless Day activities provided students opportunities to explore new skills beyond textbooks. Engaging sessions like Karate and Zumba, helped them improve physical fitness; the Fireless Cooking activity encouraged creativity and healthy eating habits; and the Abacus session enhanced their mental ability as well as concentration. Several enriching workshops for teachers were also organised to promote experiential learning and professional development.

As we move closer to the completion of the academic year, we look back with pride at the dedication and determination shown by our students and the tireless efforts of our teachers. Under the able guidance of our respected Principal Madam and the constant support of the Management, the school has successfully maintained a perfect balance between academics and holistic development. Together, we continue to move forward with confidence, positivity, and the spirit of excellence.
